

When it comes to business publishing, Corel Ventura® 10 is as powerful as it gets. It's the only tool you need for transforming long, complex documents—including XML files—into highly formatted and visually rich publications. With today's best design and layout tools, wide compatibility and flexible publishing options, you'll increase productivity and get the results your business needs to stay ahead. Corel Ventura 10 is your professional publishing solution.

VENTURA¹⁰

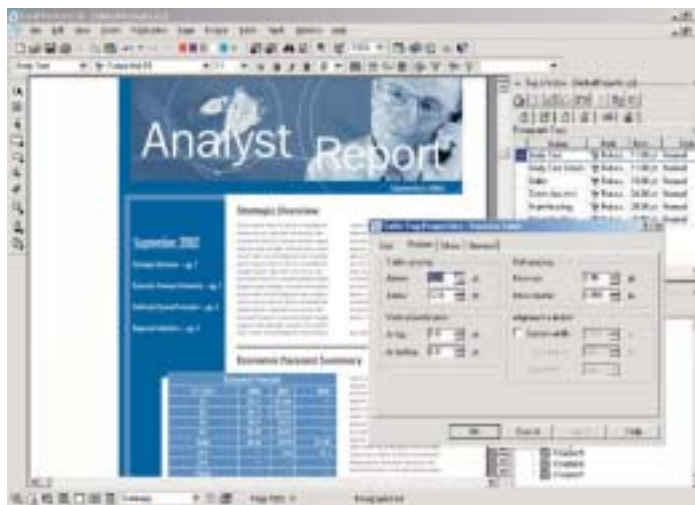

Intelligent publishing for business™

Improved Workflow

- **New Publish to PDF** – distribute documents with complete visual integrity via print, the Web or mobile devices
- **New XML import** – now that Corel Ventura® allows you to import XML files, you can easily publish XML content to create professional business documents
- **Enhanced Compatibility** – import a wide range of file formats, including WordPerfect®, Microsoft® Word, Adobe® Illustrator®, Adobe® Photoshop®, CorelDRAW®, Micrografx Designer®, iGrafx®, Corel DESIGNER™ and Corel PHOTO-PAINT®, with ease
- **Enhanced Customisation** – create, import and export work spaces, and customise toolbars, shortcut keys and common Right Mouse Button menus

Enhanced Formatting Features

- **New Table tags** – save valuable time by formatting and updating multiple tables at once. Or import tables from other applications, including WordPerfect, Microsoft Word and Microsoft® Excel, while retaining important formatting attributes
- **New Bitmap effects** – choose from more than 50 new bitmap effects to touch up graphics within Corel Ventura 10
- **Enhanced External link updating** – easily search through one or more chapters at a time to automatically find and update missing links in all of the files that are located

Professional Output

- **Enhanced Colour management** – find all your essential colour management options in one dialogue box. Prepare files for the Web, for desktop printing or for professional output, or create and save your own profiles
- **New Preflight engine** – receive preflight warnings that advise you of potential errors specific to the type of output you're producing
- **Enhanced Prepare for Service Bureau wizard** – automatically gather all files associated with a document, such as fonts and linked images, to provide a service bureau with everything necessary to open and output the document
- **Enhanced Print options** – output all bitmap images as RGB, CMYK or grayscale

Minimum System Requirements

- Windows® 2000 with SP2 or higher, or Windows XP
- Pentium® 233 MHz processor
- 128 MB RAM
- 240 MB hard disk space
- CD-ROM drive
- SVGA monitor
- Mouse or tablet
